IPower Products Limited won the iF DESIGN AWARD 2021

Hong Kong, 14.04.2021 – IPower Products Limited was a winner of this year’s iF DESIGN AWARD, the world-renowned design prize. The winning product, Electric Pendant Heater + Light & Remote Control, won in the discipline product, in the 1.18 Building Technology category. Each year, the world’s oldest independent design organization, Hannover-based iF International Forum Design GmbH, organizes the iF DESIGN AWARD.

Electric Pendant Heater + Light & Remote Control won over the 98-member jury, made up of independent experts from all over the world, with its two semi-circular metallic Incoloy heating elements individually operated by remote control and timer for quick-warming left/right directional and localized heating as desired, and illumination on demand, so that the user can enjoy the clean fresh air in open-door and open-window settings with good and ample ventilation, and sleep comfortably under our heater, especially at night and during COVID-19 pandemic. The competition was intense: almost 10,000 entries were submitted from 52 countries in hopes of receiving the seal of quality.

More information about Electric Pendant Heater + Light & Remote Control can be found in the “Winners” section of the iF WORLD DESIGN GUIDE

About IPower Products Limited

Our group has developed new Patented 360° Electric Infrared Radiant Heaters. With the recent fluctuations in natural gas/oil prices, you will find that our 360° Electric Infrared Radiant Heaters is a timely, environmental friendly and cost saving alternative for your customers. As we use metallic Incoloy heating elements, your customers do not need to breathe in harmful particles or other discharges from burning gaseous fuel. Our heaters do not emit the bright and glaring visible light as in the case of quartz heating elements and do not emit dangerous gas particles, and can be easily moved indoor or outdoor with the lockable wheels. Free Standing Model and the ceiling mounted Pendant Heater Model are much welcome at gardens, garages, offices, solariums, club houses, restaurants, elderly homes, factories, etc.

About the iF DESIGN AWARD

For 67 years, the iF DESIGN AWARD has been recognized as an arbiter of quality for exceptional design. The iF label is renowned worldwide for outstanding design services, and the iF DESIGN AWARD is one of the most important design prizes in the world. Submissions are awarded in the following disciplines: Product, Packaging, Communication and Service Design, Architecture and Interior Architecture as well as Professional Concept, User Experience (UX) and User Interface (UI). All awarded entries are featured on the [iF WORLD DESIGN GUIDE](#) and in the [iF design app](#).
