IPower Products Limited won the International Innovation Award 2020

Hong Kong, 16.12.2020 – IPower Products Limited was a winner of this year's International Innovation Award, the world-renowned prize. The winning product, Electric Pendant Heater + Light & Remote Control, won in the discipline product.

Electric Pendant Heater + Light & Remote Control won the independent experts from all over the world, with its two semi-circular metallic Incoloy heating elements individually operated by remote control and timer for quick-warming left/right directional and localized heating as desired, and illumination on demand, so that the user can enjoy the clean fresh air in open-door and open-window settings with good and ample ventilation, and sleep comfortably under our heater, especially at night and during COVID-19 pandemic.

More information about Electric Pendant Heater + Light & Remote Control can be found in [360° Far-Infrared Radiant Electric Pendant Heater With Light | International Innovation Awards®](#)

About IPower Products Limited

Our group has developed new Patented 360° Electric Infrared Radiant Heaters. With the recent fluctuations in natural gas/oil prices, you will find that our 360° Electric Infrared Radiant Heaters is a timely, environmental friendly and cost saving alternative for your customers. As we use metallic Incoloy heating elements, your customers do not need to breathe in harmful particles or other discharges from burning gaseous fuel. Our heaters do not emit the bright and glaring visible light as in the case of quartz heating elements and do not emit dangerous gas particles, and can be easily moved indoor or outdoor with the lockable wheels. Free Standing Model and the ceiling mounted Pendant Heater Model are much welcome at gardens, garages, offices, solariums, club houses, restaurants, elderly homes, factories, etc.

About the Awards

By spearheading the Innovation Revolution, The International Innovation Awards® (IIA) is the most coveted regional recognition program where it recognizes outstanding innovations, and in the process encouraging organizations to continue investing in innovations.

新闻资讯

IPower Products Limited 爱宝科研制品有限公司荣获 2020 年国际创新奖

香港，2020 年 12 月 16 日 - 爱宝科研制品有限公司获得了今年国际创新奖这一享誉全球的奖项。获奖产品远红外线吊咀式电取暖器带 LED 灯和遥控器在学科产品中获奖。

远红外线吊咀式电取暖器带 LED 灯和遥控器赢得了世界各地的独立专家，其两个半圆形金属 Incoloy 加热元件通过遥控器和定时器单独操作，可根据需要快速加热左/右方向和局部加热，以及按需照明，使用户可以在通风良好且通风良好的开门和开窗环境中享受清新的新鲜空气，并在我们的加热器下舒适地睡觉，尤其是在夜间和 COVID-19 大流行期间。

有关远红外线吊咀式电取暖器带 LED 灯和遥控器的更多信息，请参阅 [360° Far-Infrared Radiant Electric Pendant Heater With Light | International Innovation Awards®](#)

关于 IPower Products Limited 爱宝科研制品有限公司

我们的团队开发了新的专利 360° 电红外辐射加热器。随着近期天然气/石油价格的波动，您会发现我们的 360° 电红外辐射加热器是您客户的及时、环保和节省成本的替代方案。由于我们使用金属 Incoloy 加热元件，您的客户无需吸入燃烧气体燃料产生的有害颗粒或其他排放物。我们的加热器不会像石英加热元件那样发出明亮刺眼的可见光，也不会发出危险的气体颗粒，并且可以通过可锁定的轮子轻松地在室内或室外移动。花园、车库、办公室、日光浴室、会所、餐厅、安老院、工厂等，都非常欢迎独立式和吊顶式取暖器型号。

关于奖项

通过引领创新革命，国际创新奖® (IIA) 是最令人梦寐以求的区域认可计划，它表彰杰出的创新，并在此过程中鼓励组织继续投资于创新。
